# GATES FAMOUS CACTUS GARDENS

CORONA, CALIFORNIA

(Formerly of Anaheim, California)

WHOLESALE ONLY

Member California Cactus Growers Association

## *California's Largest Cactus and Succulent Nursery*

Midway Between the Desert  
and the Sea

*Phone Corona 626*

### OUR GUARANTEE

We guarantee satisfaction. If upon opening a shipment, a customer feels that we have not sent good quality and fair value, the entire shipment or unsatisfactory portion should be returned to us at once by express collect. We will refund purchase price and money paid by customer for transportation.

### TRANSIT LOSSES

We prepare and pack our plants with such care they should arrive safely at any time of the year. Claims for losses arising from freezing, heating or delay are matters that must be settled between the customer and the transporting agency.

### TERMS

Cash or Railway Express C.O.D. only. F.O.B. Corona.

Minimum: Ten plants of a kind, one hundred plants to a shipment. Orders for less will not be accepted.

### DISCOUNTS

25 or more plants take the 100 rate. Full count must be ordered to receive the 500 and 1000 rates. Orders made up of items at the 10 or 100 rates take the following discounts: orders totaling 500 plants or more, 25c per 100; totaling 1000 or more, 50c per 100.

### LABELING

We label free with printed labels when requested, BUT ONLY WHEN REQUESTED.

### PACKING

We pack free by a light and secure system which we believe is the best in use. Plants are packed bare root. We do not ship planted pots or dishes.

### SUBSTITUTIONS

Unless instructed, we use our judgment in the case of short items.

### WE ARE WHOLESALE ONLY

"RC" rooted cuttings. "S" seedlings.

### OUR NEW YEAR'S RESOLUTION

To grow only the best kinds.  
To grow more of them.  
To grow them better.  
To keep on packing well and shipping promptly.  
To keep our nursery weedless and pest free.  
To do business with a bigger smile so that we may keep our many friends and make more of them.

### A LOOK FORWARD

During the past year we increased our field plantings, graded a new flat yard and equipped it with concrete bars to carry thirty-five hundred flats, built a cloth house to accommodate five hundred flats and a glass house to take care of another five hundred flats. All this means we can grow a million more plants a year for you than we have in the past.

### PRICES

We do not happen to be a seventh son or the son of a seventh son but we think we can safely prophesy a raise of prices in the future if present hourly wages are raised by thirty per cent. We know we would have to raise ours or else quit and go fishing.

### COME AND SEE US

Before the year is over, many of you will make that long planned-for trip to California. You will find our place interesting. There is nothing in the whole country like it. Cactus growing is a business with us. We are beginning our seventeenth year in it.

## GROUP "A"

### CACTUS

\$ .50 per 10, \$4.00 per 100, \$18.75 per 500, \$35.00 per 1000
